

Lalit Narayan Gupta

Software Test Engineer (Immediate Joiner)

guptalalit4223@gmail.com | +91 8770539876 / 7869824223(WhatsApp)

EXPERIENCE SUMMARY:

- Total **2.6 years of experience** in **Software Testing and Quality Assurance** with expertise in **Manual Testing and Automation Testing** for **Web and Mobile Applications**.
- Experienced in **Functional Testing, Regression Testing, Integration Testing, System Testing, API Testing, Mobile Testing, and Cross-Browser Testing**.
- Hands-on experience in **Automation Testing** using **Playwright with JavaScript/TypeScript**, including development and maintenance of **scalable, reusable automation frameworks**.
- Strong understanding of **SDLC, STLC, Agile Methodology, Scrum Ceremonies, Defect Lifecycle Management, and JIRA**.
- Performed **API Testing** using **Playwright API and Postman**, validating **Response Codes, Payloads, Schemas, API Data, and Error Handling Scenarios**.
- Integrated **Automation Test Suites** into **CI/CD Pipelines** using **Jenkins and GitHub Actions** for **Continuous Testing and Early Defect Detection**.
- Conducted **Cross-Browser and Cross-Platform Testing** across **Chromium, Firefox, WebKit, and Android Platforms** to ensure **Application Compatibility and Consistent Behavior**.
- Strong **Analytical, Debugging, Communication, and Collaboration Skills** with experience testing **Payment Systems, Refund Workflows, Logistics, Claims Processing, and E-Commerce Applications**.

SKILLS & TECHNOLOGIES:

- **Programming Language & Framework:** - Playwright, Typescript, Java, Selenium WebDriver, Page Object Model (POM), TestNG
- **Tools:** - VS Code, Postman, GitHub, Git, Copilot, MCP.
- **Manual Testing** - Functional Testing, Regression Testing, Integration Testing, System Testing, API Testing, Mobile Testing (Android), UAT Testing, Cross-Browser Testing, Test Planning, Test Case Design & Execution, Defect Tracking & Reporting
- **Project Management:** Agile Methodology, Scrum, SDLC, STLC, JIRA (Management Tool).
- **Operating Systems:** - Windows
- **AI/Automation Tools:** MCP Server, LLM-based Automated Test Case Generation
- **Other Skills:** Analytical & Critical Thinking, Requirements Analysis, Documentation, Cross-functional Team Collaboration, Communication & Interpersonal Skills.

WORK EXPERIENCE:

- Working as “**Quality Engineer**” in “**New Vision Software Bhopal**”, from “**3 April 2026**” till now.
Location: Bhopal, MP (onsite)
- Worked as “**Programmer Associate**” in “**AUWAVE TECHNOLOGY**”, from “**24 Feb 2025**” till “**30 October 2025**”.
Location: Bangalore, Karnataka (Onsite)
- Worked as “**Programmer Associate**” in “**Etech IT Solutions**”, from “**11 July 2022**” till “**31 January 2025**”.
Location: Hyderabad, Telangana (onsite)

PROJECT DETAILS:

New Vision Software | BHOPAL, INDIA

Project 1 – Big Lots (U.S) [OBJ]

April '2026

Quality Engineer- Digital Assurance (Full Time)

- Designed, Developed **Playwright end-to-end automation test cases** for **Registration, Login, Cart, Checkout, and Order workflows** to ensure application quality and business flow validation.
- Built a **scalable automation framework** using **JavaScript/TypeScript, POM, Playwright Fixtures, reusable components, and centralized test data management**.
- Created and executed **test plans, test cases, and automation scripts** for **Functional, Regression, Usability, and Performance Testing**.
- Performed **API Testing** using **Playwright API and Postman**, validating **responses, status codes, payloads, and error handling**, with **CI/CD integration** using **Jenkins and GitHub Actions**.
- Conducted **Cross-Browser Testing (Chromium, Firefox, WebKit)**, implemented **parallel execution**, and tracked defects using **JIRA** for continuous improvement.

AUWAVE TECHNOLOGY | BANGALORE, INDIA

Project 1 – Inforen's (U.K)

Feb '2025 –Oct '2025(9 months)

Software Test Engineer (Contract)

- Designed and executed **test plans, test cases, and Playwright automation scripts** to validate **functionality, usability, and performance** of web and mobile applications.
- Built and maintained a **scalable Playwright automation framework** using **JavaScript/TypeScript** with **modular architecture and reusable components** for **functional and regression testing**.
- Collaborated with **developers, business analysts, and stakeholders** to analyze requirements, define **acceptance criteria**, and ensure delivery of **high-quality software releases**.
- Performed **API Testing** using **Playwright API features and Postman**, validating **API responses, status codes, payload integrity, and error handling**, and integrated automation suites into **CI/CD pipelines** using **Jenkins and GitHub Actions**.
- Conducted **Cross-Browser and Cross-Platform Testing** across **Chromium, Firefox, and WebKit**, managed defects using **JIRA**, and coordinated with teams for faster resolution and continuous improvement.

ETECH IT SOLUTIONS | HYDERABAD, INDIA

Project 1 - American Signature (U.S)

Feb '2024 – Jan '2025(1 years)

Software Test Engineer (Full-Time)

- Automated **web and mobile application testing** using **Playwright with JavaScript/TypeScript**, covering **UI, Functional, and Regression Testing** scenarios.
- Developed and maintained a **modular Playwright automation framework** with **reusable test components, custom reporting, and scalable architecture**.
- Performed **API Testing** using **Playwright API and Postman**, validating **endpoints, request/response payloads, status codes, and error handling**.
- Integrated automated test suites into **CI/CD pipelines** using **Jenkins and GitHub Actions** to enable **continuous testing and faster validation cycles**.
- Collaborated with **developers and stakeholders** to analyze requirements, ensure **quality releases**, and manage **defects in JIRA** for timely resolution and smooth release cycles.

Project 2 - Abercrombie and Fitch, Hollister (U.S) **Jul '2022 – Jan'2024(1.6 years)**

Software Test Engineer (Full-Time)

- Conducted **end-to-end manual and automation testing** on **web and mobile applications** to identify

defects and ensure application quality, stability, and reliability.

- Designed and executed **automated regression, smoke, and functional test suites** using **Selenium WebDriver with Java and TestNG** to improve testing efficiency.
- Created and maintained **detailed test cases, test documentation, and requirement traceability** to ensure complete test coverage and validation.
- Performed **Cross-Browser Testing** using **Selenium Grid** across **Chrome, Firefox, and Edge**, along with **compatibility testing** across **Windows, macOS, Linux, Android, and iOS** platforms using **Appium**.
- Executed **REST API Testing** using **Postman and REST Assured**, validating **response codes, payloads, schemas, and error handling**, and performed **log analysis/debugging** to identify root causes and improve application stability.

EDUCATION:

- | | |
|---|---------------------------|
| • Bachelor of Technologies, JNCT BHOPAL | AUG 2019 Bhopal, India |
| • Saraswati Gyan Mandir Inter College (H.S.C) (73%) | JUNE 2014 Kanpur, India |
| • Jai Narayan Vidhya Mandir Inter College, Kanpur (S.S.C) (80%) | JUNE 2012 Kanpur, India |

CERTIFICATIONS:

- Selenium with Java Certification from Udemy.
- Playwright with JavaScript Certification from Udemy.

AWARD:

- Selected for table tennis State level tournaments
